Report of Trustees of Town Library.

Soon after the Annual Meeting of the town in March, 1884, the Board was organized and appointed Librarian and other Officers. Measures were also taken to procure a Catalogue of the Library, the town having made an appropriation for the printing. Various plans of arranging the books in the Catalogue were submitted to the Board; that which was at length adopted embraces in its columns, both titles and authors; the numbers corresponding to the places occupied by the volumes, as they stand on the shelves of the Library, giving the case, range, shelf and position on the shelf. This method was suggested and explained to us by Miss H. H. Ames of Boston, and Miss M. A. Bean of Brookline, Mass., both of whom are thoroughly familiar with the whole business of arranging and classifying books, and the details of library work. The preparation of the lists of books, and the re-arrangement of the volumes on the shelves, requiring a fortnight's labor, were performed by Mrs. Burnham and Miss McKean, aided by Miss Myrick, all of whom decline any compensation for their services.

The publication, including the revision of the Mss. and the correction of the proofs, has also been performed gratuitously under the hands of Miss Ames of Boston and Miss Bean of Brookline, Mass., where the printing and press work were exe-

cuted. In consequence of sickness and some incidental hindrances, the publication has been delayed until this date. But the completeness of the Catalogue in style and arrangement will be ample compensation for any inconvenience which may have been felt. The thanks of all our citizens are due to the ladies who have rendered such important service to this community.

For the reception of the increasing number of books an additional book case has been provided. The bills for printing and the cost of this new case, exceed one hundred dollars. With the balance on hand, after paying necessary expenses, twelve volumes were purchased for the Library, which with the titles of the subjoined list of books given during the current year will be found in the Catalogue.

One pair of steps for Library.

By Mr. Ira Roby.

From the record of the Librarian, it appears that 1731 volumes have been loaned during the year, an average of thirty-four deliveries per week, extending to one hundred and eight families. This is a falling off from the circulation of last year, which finds its explanation in the fact, that we had fewer new books to attract readers.

To maintain the organization of the Board of Trustees, two persons must be chosen at Town Meeting to fill the offices now held by Messrs. Davis and Upton, whose term of service expires, and one person to fill the vacancy occasioned by the removal of Mr. J. Haseltine from town.

To the foregoing statements, a summary from the report of the treasurer, Miss P. E. McKean, is subjoined.
